U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On January 5, 1975
 - Export shipments in
Current Marketing Year
 - Daily Sales reported
January 6, 1975 - January 14, 1975
- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our brief experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

EXPORT SALES REPORT

Comments on January 16, 1975, release:

Wheat: During the week ending January 5, the apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 declined by 197,000 metric tons (M.T.). This was only the second weekly decline since the marketing year began on July 1, 1974. The decline resulted mainly from a drop in outstanding sales to unknown destinations, the European Community (EC) and Egypt. Since January 8, new sales totaling almost 300,000 M.T. for 1974/75 delivery to North African and Middle Eastern destinations were recorded under the daily reporting system.

Feed Grains: The apparent export commitment increased by 425,000 M.T. during the week, reflecting new sales to Western and Eastern Europe and Japan. The recent decline in corn prices on the world market triggered an increase on January 11 in the EC import levy to about \$5.50 per M.T. This could reduce EC imports of U.S. corn during the remainder of 1974/75.

Rice: A sale of 210,000 M.T. to the Republic of Korea resulted in a sharp increase during the week in the apparent export commitment.

Soybeans: During the week, the apparent export commitment decreased by 236,000 M.T. while the unadjusted annual rate of exports increased to 14.2 million M.T., a level slightly above the range of the USDA estimate. As might be expected, 145,000 M.T. of the decline in the apparent export commitment was in outstanding sales to Japan. The apparent export commitment to Japan still exceeds 4 million M.T., well above that country's estimated import requirement of 3.15 - 3.25 million M.T., and further cancellation or deferral of sales to Japan appear likely.

Soybean Meal: During the week, the apparent export commitment declined slightly to 9.5 million M.T. and the unadjusted annual rate of exports dropped to 4.0 million M.T. Exports of only 51,500 M.T. were the smallest weekly total since November.

Soybean Oil: During the week, the unadjusted annual rate of exports rose to a new high level of 547,000 M.T. for 1974/75, slightly above the range of the USDA estimate.

Cotton: During the week, exports of Upland cotton reached 101,000 running bales (RB). This was the highest weekly total since the marketing year began on August 1, 1974, and brought the total to date to 1,161,000 RB. Outstanding sales again declined by less than the increase in exports and the apparent export commitment rose to 4,341,000 RB.
